

PARTNER WITH US FOR GOOD.

Good for learners. **Good for your community.**

FACT 1:

In the U.S. almost 40 million adults need adult education services. Online learning opportunities, like KET's FastForward and Workplace Essential Skills, enable students to learn wherever they have a device with proper connectivity, whenever they can.

FACT 2:

19 Million adult Americans over the age of 19 are without a high school diploma and the Pew Research Center reports that more jobs than ever require a higher-level, skilled workforce.

FACT 3:

FastForward and Workplace Essential Skills online curricula provide learners with the information and skill building they need to meet college and career goals.

Participating stations will receive a 20% commission based on the volume of sales generated from local station efforts. KET provides logos, graphics, video clips and descriptions for use on station websites; a toolkit with resources for community engagement and webinars with up-to-date information and support for local broadcast.

With 50 years' experience providing adult education content and services, KET is here to help you expand educational opportunities within your community. By becoming a Partner Station you can help address these issues in your community and share in the revenue from sales.

For more information about KET's Partner Station Program, please contact: Sarah Wilkins at swilkins@ket.org.
